DETAILED OFFICE ACTION

Withdrawal of Final Rejection

Applicant's request for reconsideration of the finality of the Office action issued Nov. 17, 2008 is persuasive and, therefore, the finality of that action is withdrawn. The Amendment filed Dec. 19, 2008 is accordingly entered as a matter of right.

Rejections Under 35 USC 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 11, 26 and 30 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. It is not understood what is intended by the phrase "essentially free" of the β -crystal form. The basis on which the essential purity is based is not defined. It is also not understood how the purity is to be determined. If the reaction mixture is free of the β -crystal form as determined by X-ray powder diffraction, but not as determined by IR or DSC, or some other variation of these determinations, must the other forms of determination also be carried out?

Allowed Claims

Claims 1-10, 12-25, 27-29, 31 and 32 are allowed. Following is an examiner's statement of reasons for allowance.

Claims 1-10, 12-25, 27-29, 31 and 32 are unanticipated and unobvious over WO/1999/03856 in the stoichiometric ratio of the reactants. WO/1999/03856 does not describe or render obvious selective preparative of the α -crystal form of imatinib methanesulfonate. In addition, the claims are unanticipated and unobvious over all other prior art of record, whether taken individually or in any combination.
